- X-ray cabinets

The LLX200-DA is a high frequency constant potential Directional Air cooled, portable X-ray generator that can be used in combination with digital detectors.

LLX is the latest result of 65 years of expertise of Balteau in portable units combined to 25 years of Constant Potential equipment manufacture. LLX is the answer to your requirements for field inspection especially where quality requirements and speed of inspection are essentials. The specific shape given to the head of the generator makes it easier to use on field where space is always restricted for instance in aerospace applications.

MECHANICAL DRAWING

LLX is controlled by a full digital control unit (DC1) using the energy saving concept of the BALTOSPOT series and our well known Hand-X® wireless remote control that is also available for your best safety.
