INDUSTRIAL CR APPLICATIONS MADE EASY WITH CARESTREAM NDT INDUSTREX PRODUCTS.

Carestream NDT's innovative research and development teams are continually working to make sure you have the products you need for any non-destructive testing (NDT) application. We are committed to creating better solutions and products for today's computed radiography (CR) applications for NDT.

Our INDUSTREX Digital Imaging Plates are a prime example. They offer the flexibility of film without the need for wet processing. This lets you capture and read images quickly and easily, both in the field and in the lab. You can optimize the images if needed and store or share them digitally.

INDUSTREX Digital Imaging Plates Features

- Flexible – wrap around most shapes.
- Sharp – better resolution than high-speed films, and a suitable replacement for many applications.
- Available in multiple sizes – to cover a wide range of applications.
- Versatile – use in a rigid or flexible cassette.
- Efficient – phosphor plates can be erased and reused thousands of times, require less exposure than film, and provide faster image access.
- Certified – when used with Carestream NDT INDUSTREX HPX-1 Plus Digital Systems, all plates meet requirements for the highest system class per EN 14784-1 and ASTM E 2446.

Recommended Uses

Carestream NDT INDUSTREX Digital Imaging Plates are available in many sizes, and are designed for a wide variety of NDT applications, including:

- Castings
- Erosion and Corrosion
- Pipeline Inspection
- Welded Fabrication

Flex HR-AP and XL Blue G2 Digital Imaging Plates

The INDUSTREX XL Blue G2 Digital Imaging Plate features higher resolution than the Flex HR-AP plate for the most demanding applications.

Compatible CR Equipment

Carestream NDT INDUSTREX HPX-1 Plus and HPX-PRO Digital Systems.

Certification and Support

HR and XL Blue G2 imaging plates have been ASTM E 2446 tested in the HPX-1 Plus and HPX-PRO Digital Systems.

From training to customer services to technical assistance, our support is worldwide and world class. We provide what you need to get the job done, leaving you free to concentrate on your mission-critical objectives.
