

EXPANSION BOX EXP-1 for PIPELINE DEMAGNETIZING SYSTEM

The Pipeline Demagnetizing System with the Expansion Box allows a weld pass to be made quickly, efficiently and with full quality on **highly magnetized pipes (500G or higher) or those that are 32" and larger in diameter.** The Expanded System Bundle works together with the Pipeline Demagnetizer to increase demagnetizing power and duty cycle. The DSDC-5 Power Controller runs 2 cables. The EXP-1 weighs 73 pounds and includes:

- Expansion Box
- 100' Demagnetizing Cable
- Interconnect Cable
- Transit Case with wheels

EXP-1

Double the Power & Increase the Duty Cycle

EXPANSION BOX

Input:	Direct Output of Pipeline Demagnetizer
Output:	2 Demagnetizing Outputs 1 Reversing Output
Protection:	Built In Circuit Breaker Locking Plugs
Weight:	5 Pounds

DEMAGNETIZING CABLE

Cable Length:	100 Feet
Operating Temperature:	-10° to 200° F
Weight:	43 Pounds
Characteristics:	Heavy Duty PVC Built-In Dust Caps Flexible UV, water, weather & oil resistant

TRANSIT CASE

Material:	TTX01 High-Strength Resin
Features:	Retractable Handle Built-In Wheels
Weight:	25 Pounds
Dimensions:	Length: 25 Inches Width: 22 Inches Height: 15 Inches
