

## PTS ZP AC & HWDC Portable/Mobile MPI Machines

	<p><b>Magnetizing current source</b> <b>ZP-1000H/1500H/2000H/3000H AC &amp; HWDC</b></p> <ul style="list-style-type: none"> <li>• The source can be used for magnetizing by current flow or for magnetizing by coil</li> <li>• It has built-in regulation and current measurement</li> <li>• Turning on the output is done manually using a button or a foot switch</li> <li>• Regulation of the current is done by Thyristor power regulator from 0 to full output</li> <li>• demagnetizing becomes automatic every time the current has been switched off</li> <li>• the source contains also the 230V/10A socket for connecting a UV lamp</li> </ul>
---	---

### Optional features:

- Touch panel for complete control of the source with automatic setting of parameters according to the tested product
- Statistics of achieved currents and magnetization times

1	Single power sources mobile AC/HWDC	Description
1.1	MT-PTS-ZP1000-HDC	ZP 1000-HDC single power source, 1000A AC// 600 A HWDC. 460VAC/60Hz
1.2	MT-PTS-ZP1500-HDC	ZP 1500 HDC single power source, 1500A AC// 970 A HWDC. 460VAC/60Hz
1.3	MT-PTS-ZP2000-HDC	ZP 2000 HDC single power source, 2000A AC// 1300 A HWDC. 460VAC/60Hz
1.4	MT-PTS-ZP3000-HDC	ZP 3000 HDC single power source, 3000A AC// 1900 A HWDC. 460VAC/60Hz
