

The rebuilt machines we offer can be built to your specifications.

Please see the below list and let us know how you want your machine to be customized.

Rebuilt Magnetic Particle Machines Technical Specifications	
Head Opening:	54" or 100"
Coil Sizes:	12" (standard), 16", 20" or 24"
Power Module Circuitry:	1-Phase (standard) or 3-Phase
Current:	240 VAC or 480 VAC, 1-Phase Power
Current Output Options:	AC, HWDC, FWDC, AC + HWDC, AC + HWDC + FWDC
Power:	3,000, 4,000 or 6,000 Amps
Magnetization:	AC or Reversing DC Demagnetization
Input Power:	Volts and Amps, 1-Phase or 3-Phase
Include:	LED UV Lamp, Hood, Start-up Supply Kit

NOTES: Please describe your application requirements.
