

Premier NDT Resources

To our potential customer,

Thank you for inquiring about Premier NDT Consulting's (PNR) capabilities and pricing.

PNR can perform the following Level 3 duties required by many industry specifications:

- ✓ Develop, implement, and maintain NDT certification system
- ✓ Develop, qualify and approve NDT procedures and techniques
- ✓ Interpret codes, specifications, standards and procedures and designate NDT methods to be used
- ✓ Interpretation and evaluation of results in terms of existing codes, standards, specifications, etc.
- ✓ Develop, review and approve Written Practices
- ✓ Develop, administer, review, and approve NDT training
- ✓ Develop, administer and grade general, specific, practical and visual acuity exams required for certification
- ✓ Verify qualifications of candidates and recommend them for certification
- ✓ Evaluate and document technical performance of NDT technicians
- ✓ Perform yearly survey of the NDT system
- ✓ Represent customers during NDT audits

PNR's specialties:

- ✓ Nadcap audit preparation and representation during audits
- ✓ Aerospace industry
- ✓ Maritime construction
- ✓ Rail industry
- ✓ American Welding Society (AWS) codes
- ✓ American Society of Mechanical Engineers (ASME) codes
- ✓ General and advanced NDT consulting
- ✓ Developing and administering NDT programs including certification and inspection procedures
- ✓ Working with various certification schemes such as NAS 410, SNT-TC-1A, AAR Appendix T, ASME Section V Article 1, etc.
- ✓ VT, PT, MT, UT, PAUT, TOFD, RT, ET
- ✓ ITAR program development, training, and auditing
