

## W-IC Inspection Booth Purchasing Guide

- Date:
- Company:
- Contact Name:
- Email Address:
- Phone Number:

### 1) Select Booth Model

- W-IC-1:** 40" x 30" x 34" (LxWxH), 250 lbs. (115 kg) Capacity, with: Push Handle (adds 4" to length), Rubber Work Surface, 2 Shelves and Power Bar (w/ 18' Cord and GFI)
- W-IC-2:** 60" x 30" x 34" (LxWxH), 350 lbs. (160 kg) Capacity, with: Push Handle (adds 4" to length), Rubber Work Surface, 2 Shelves and Power Bar (w/ 18' Cord and GFI)
- Custom Inspection Cart and Workpiece Fixtures**, up to 96" x 60" x 34" (LxWxH)

### 2) Select Hood

- Fixed Black Nylon Hood** with Frame, makes booth height 84" and operator overhang 18"
- Retractable Black Nylon Hood** with Frame for heavy parts, makes height 104" when hood is folded back (*Not compatible with Longitudinal Pass Through and Overhead Coil Suspension Trolley*)
- No Hood**

### 3) Do you want a Longitudinal Pass Through? If yes, specify pass-line and product diameter

Allows 18" of workpiece to enter the inspection area. Pass Through is fitted with brush type skirting. The pass-line and product diameter must be specified, as work surface height is adjusted accordingly.

- Yes** (*Requires Fixed Nylon Hood*)
- No**

### 4) Select Work Surface

- Rubber Work Surface**
- Coated Paper Work Surface**, with paper roll and tear off edge (*Not compatible with Bath Recirculation System*)

# NDT Supply.com, Inc.

7952 Nieman Road  
Lenexa, KS 66214-1560 USA

## 5) Do you want the Bath Recirculation System?

Includes Coated Screen Work Surface (perforated to permit bath to return to tank), Hopper Style Tank (epoxy paint), Sump, Sump Drain, Pump, Agitation Nozzle and Bath Nozzle.

- Yes (*Not compatible with Coated Paper Work Surface*)
- No

## 6) Select Coil Accessories

- Overhead Coil Suspension Trolley**, for moving large inspection coils to the side (*Not compatible with Retractable Nylon Hood*)
- Longitudinal Rails**, for mounting on work surfaces. Specify additional accessories below:
  - Coil Cart** for Longitudinal Rails, allows coil to be moved side to side
  - Rotatable Coil Mount** for Coil Cart, allows coil to be skewed at an angle
- None

## 7) Do you require a Coil, Yoke, Black Light or other accessories (select below)?

- Coil
- Yoke
- Blacklight
- Other (please specify):** [Click or tap here to enter text.](#)

## 8) Do you want to Double Workpiece Capacity?

W-IC-1 up to 700 lbs. (320 kg) capacity, W-IC-2 up to 1100 lbs. (500 kg) capacity

- Yes
- No

## 9) Do you want the Bath Starter Kit?

Includes 1 lb. Fluorescent Powder, Centrifuge Tube, Stand for Bath Evaluation, Field Indicator (Magnetometer) with Helmholtz Coil +/- 10 Gauss, and Castrol Strips

- Yes
- No

# NDT Supply.com, Inc.

7952 Nieman Road  
Lenexa, KS 66214-1560 USA

## 10) Select additional accessories desired below:

- White Light Fixture**, with switch and option between Fixed or Retractable Hood
- Ventilation Fan**, recommended with Bath Recirculation Systems using an oil-based carrier. Fixed or Retractable Hood options
- Pony Panel**, brings higher voltage to the W-IC which provides 2 voltages and outlets up to the mounting panel for the Power Bar and White Light Switch. Eliminates the need for extra cords to the Inspection Cart. 2 Options:
  - 230 VAC x 60 Hz
  - 380 (400) VAC x 50 Hz (3 Phase)
- Turntable**, Specify Horizontal Coil Suspension. For convenient vertical handling
- Adjustable Height Workpiece Platform**, provides a shelf to hold small parts with a weight capacity of 15 lbs. In the center of the coil
- Rotatable Steady Rests (2)**, to allow workpiece to be placed horizontally over the work surface and rotated
- None**
