DIO 1000 PA

The Defectobook® DIO 1000 PA Ultrasonic Flaw Detector combines features of conventional ultrasonic with the power of Phased Array.

Using the latest generation of electronic components and microprocessors Starmans has created the thinnest, lightest and lightest portable phased array instrument, which makes your inspection quick and easy. The standard instrument has 16 parallel channels.

The DEFECTOBOOK® DIO 1000 PA complies with all common standards such as EN12668-1, ASME Code case 2541, ASTM E2491, ASTM E2700. The instrument also combines the powerful advantages of digital design with detailed dynamic echo information, using a sampling rate 200 MHz, 12-bit.
