

RADAC - Plastic Cassettes (X-Ray Film Holders)

RADAC is the Premier Line of Radiographic Film Cassettes, offering the highest quality and greatest assortment of Cassette types, materials and sizes available.

Product Features:

- **Flexible Single Envelope Cassettes** - Available in: standard, reinforced and heavy-duty grade materials with a Velcro light seal.
- **Flexible One Seam Reinforced Single Envelope Cassettes** - Constructed in RADAC's reinforced grade material and manufactured without side seams. They are made to outlast any other type of flexible cassettes.
- **Flexible Double Envelope Cassettes** – Constructed from RADAC's standard grade material and designed to lie perfectly flat, having no fold over ends of Velcro fastening.
- **Flexible Magnetic Cassettes** – Constructed as per RADAC's Standard Single Envelope Cassettes, but with the addition of Magnetic Rubber Strips riveted down the two sides of the cassette. These cassettes are suited to plate work, storage tanks and large diameter circumferential welds.
- **Semi Rigid Cassettes** – Constructed from RADAC's heavy-duty grade material, with a card insert and produced on the Double Envelope principle. These cassettes are suited for castings.
- **Custom Cassettes** – RADAC can manufacture special custom cassettes to your specification, including:
 - Single envelope cassettes up to 3m long for pipe radiography.
 - Single envelope cassettes that link together either with press-studs or Velcro.
 - Cassettes of special sizes and custom irregular shapes.
