

Film Processing Tanks

These X-Ray Film Processing Tanks are constructed of molded PVC and designed to be used in mobile darkrooms.

Features:

- All-stainless hardware
- User-replaceable silicone lid seal
- Optional bottom 1" drain hole with silicone plug

Tanks are available in two sizes (standard version with white lid):

- 10 US Gallons capacity (37.85 litres), with dimensions of 23.5"H x 19"D x 10"W
- 7.5 US Gallons capacity (28.39 litres), with dimensions of 23.5"H x 19"D x 8"W

* Tanks are sold separately, user must provide their own stand and plumbing if needed.

* Now with Light-proof version with black lid.
